

HOT-STOP® 'L'

PROUDLY MADE

IN THE U.S.A.

HOT-STOP® 'L'

LITHIUM ION FIRE CONTAINMENT KIT

INDEPENDENTLY TESTED AT UL APPROVED LABORATORY AND STILL THE ONLY BURN CERTIFIED KIT ON THE MARKET

Protect yourself against smoke, toxins, harmful carcinogens, fire, shooting molten metal and other emissions caused by new technology from the latest electronic devices.

Don't expose yourself! Ingesting any of these can result in immediate and permanent damage!

- Our Zero-Tolerance technology means ZERO SMOKE!
- 5 to 10 seconds max to deploy and in no more than 6 easy steps!
- No need to add liquid as adding liquid can result in exposure to a burning battery!
- Don't become a fire fighter!
- Infrastructure for full production
- **Zero Smoke Emissions!**

- Developed by the Pioneers in Li-Ion fire protection technology
- Designed to contain a PED that reaches thermal runaway and contain it until it has burned out
- XL laptop kit (26" x 27") accommodates your larger all-in-one laptops and defibrillators
- Sold as kit – includes gloves
